OPERATING INSTRUCTIONS

BATTERY REQUIREMENTS

Thank you for your purchase of Conair™ Massaging Slippers. They require 2 AAA batteries, not included, (1 per slipper) for use of the massaging feature.

INSTRUCTIONS FOR USING MASSAGING FEATURE

First, locate the battery compartment in each slipper by pulling up on the tab located at the heel of the slipper to reveal the battery compartment. Underneath, remove the battery cover; you will see a place for 1 AAA battery.

Insert the batteries so that the +/- terminals of the batteries match the +/- markings in the battery compartment. **WARNING: Use only alkaline batteries. Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium) batteries.** Clean the battery contacts and also those of the device prior to battery installation. Remove used batteries promptly.

Close the compartment. Place the slippers on your feet and locate the On/Off button on the side of the slipper. Press once to turn on massaging motor. After your foot massage, turn the massager off by pushing the On/Off button again.

If you are traveling or are not going to use the massaging feature for more than a few days, remove used batteries. Remove batteries from slippers if they will not be used for an extended period of time.

RECOMMENDED MASSAGING TIMES

Generally, massage should last only 15 minutes on any one particular part of the body. Treatment may be applied once or twice daily as desired.

As metabolism varies among individuals, so does their response to massage. You will soon adjust the time to suit your particular needs and personal comfort. If you have any doubts regarding treatment, we recommend you consult your physician.

STORAGE

When slippers are not in use, you should remove the batteries from your Conair® massaging slippers and store them in a safe, dry location out of reach of children.
